

Karen Schweigler:

Karen Schweigler offers administration support to EULIS. She is a Management Assistant at the Dutch Kadaster, focusing on international activities. She has worked with various geospatial related organisations including EUROGI (European Umbrella Association for Geographic Information), GSDI (Global Spatial Data Infrastructure) and EuroGeographics. Karen is quite knowledgeable in the terminology of geo-spatial technologies and spatial data infrastructures. She offers strong administrative experience for organizing meetings, workshops and conferences as well as writing minutes, developing action lists and chasing people to complete promised tasks. She speaks Dutch and English fluently.
